

Launch Day

Partner school	I.C. 2 - "L. Pietrobono" (Secondary School) – Frosinone (Italy)
Date	3 rd October 2018
Class / Age	13 years old students
Short description of the event	On the 3 rd of October the launch of the project took place at school only with students (about 150 divided into three different groups) and teachers. On the 25 th of October there will be the event with all the parents too. During the launch the pupils were informed of the topic of the project, countries-partners, goals and objectives, products to be realized, mobilities, etc.. It was also an effective opportunity to let the learners aware of the importance of the adequate knowledge and competences for a sustainable development in all aspects (cultural, ecological, social and economic).
Goals and objectives	This meeting was focused on the opportunity (for students and teachers) to understand that joining efforts and experiences is essential to find effective strategies to help each other make conscious choices aimed at achieving and preserving a world which the future generations will live and work in, and at the same time promoting a good quality of life in a perspective of individual and common well-being.
